***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 8, 2010 has been entered.

***Response to Amendment***

Amendment filed on November 8, 2010 has been entered. Claims 37, 51, 52, and 67-76 are pending in the application.

Claims examined on the merits are 37, 51, 52, and 67-76.

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with H. Sanders Gwin, Jr. on November 17, 2010.

Please substitute the Abstract filed on 12/20/2000:

"An improved process for manufacture of polymer coated composite substrates is described. a coated composite substrate is prepared in the press by applying a layer of a primer coating composition to the surface of a compressible mat comprising fibers and/or particles and a

Art Unit: 1715

resin binder. The primer coating composition is formulated preferably as a fast setting polymer latex capable of forming a chemically crosslinked polymer matrix when applied to the surface of a compressible mat. a thermosetting top coat composition can be applied directly over the wet primer coating composition before heat-processing the mat to improve surface quality and release characteristics. Compressing and heating the coated mat produces a primed composite substrate directly out of the press.” with:

***Allowable Subject Matter***

Claims 37, 51, 52, and 67-76 are allowed over prior art.

The following is an examiner’s statement of reasons for allowance: claim 73 is allowed because the cited prior art of record does not teach or suggest applying a primer directly to a surface of a wood composite material, then applying a top coat onto a crosslinked primer followed by compressing and heating the primer, top coat and the wood composite material.

Art Unit: 1715

Closest prior art of Schedlitzki teaches applying a primer first to a paper, then applying a top coat onto the primer followed by pressing the coated paper onto a wood composite material.

Claims 37, 51, 52, 67-72, and 74-76 are allowed as further limiting claim 73.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
